PROFESSIONAL SUMMARY

Recent B.Tech Information Technology graduate with hands-on experience in developing responsive web applications using React.js, JavaScript, HTML, and CSS. Built full-stack projects utilizing Node.js, Express.js, and PostgreSQL. Passionate about problem-solving, modern web technologies, and creating user-friendly digital experiences. Seeking an opportunity to contribute and grow as a Frontend or Full-Stack Developer.

EDUCATION

University of Information Technology
Bachelor's of Technology in Information Technology

Himachal Pradesh University, Shimla
Sep. 2021 – July 2025

PROJECTS

- Expense Tracker Application** | *HTML, CSS, JavaScript, React.js* Aug 2024 – Oct 2024
- Developed a dynamic and responsive expense tracking web layout using React.js to practice building modular UI components.
 - Designed an interactive light/dark mode toggle utilizing smooth CSS transitions and gradient styles to improve user interaction.
 - Created a structured, card-based interface with a grid system for user inputs, improving general usability and look.
 - Utilized basic testing tools like Jest to verify user interface elements and application states during development.
 - Monitored basic application performance metrics and page rendering factors to optimize user load times.
- Camping and Homestay Platform** | *React.js, JavaScript, Node.js, Express.js, PostgreSQL* July 2025 – Oct 2025
- Built a full-stack learning project featuring a React (Vite) user interface and a modular backend architecture.
 - Designed and implemented a clean, responsive layout foundation across various page views using Tailwind CSS styling.
 - Configured a structured backend REST API scaffold using Express routing to handle incoming frontend data fetch operations.
 - Practiced environment variable management across development files to securely link frontend elements with backend routes.
 - Gained initial exposure to database management by designing elementary relational tables and querying data for user displays.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: PostgreSQL, SQL

Tools: Git, GitHub, VS Code, Postman

Core Concepts: Data Structures and Algorithms, Database Management Systems, Object-Oriented Programming, Operating Systems, Computer Networks
